

ONLINE STUDENT REGISTRATION SYSTEM

Online Student Registration System (OSRS) by RaaWee, Inc. makes the annual registration process faster and reduces the paper trail for Public Schools.

Registrars will save time in approving applications, avoid tedious efforts in printing, sorting, and manually entering the data for each applicant. It is very convenient and a highly efficient way to handle the work load at each school year registration time.

It also provides convenience to the Guardians/parents of students who could fill in the desired information online at their convenience. They won't have to enter or write the same information for each child. Enter the common information once, and it will be copied for all applications they are submitting.

OSRS

Simple
Customizable
Scalable
Complete

DISTRICT & CAMPUS

- ➔ Customizable Online Registration Forms
- ➔ Real-time Synchronization with SIS
- ➔ Data Validation and Cleansing according to the formats needed by SIS
- ➔ Audit Trail
- ➔ Data Security using 128 bit encryption
- ➔ Role Based Access
- ➔ Pre-Creation of online accounts for the existing Guardians/Parents

CAMPUS

- ➔ Customizable Workflows for Campus Staff to Approve, Provisionally Approve or Deny the applications
- ➔ View & Search Filters
- ➔ Alerts & Notifications for Campus Staff
- ➔ Barcode technology to track registration applications
- ➔ System Services & Reports specific to Roles
- ➔ Integration of Digital Signature Pads for Guardians to sign the application

GUARDIANS

- ➔ English & Spanish Languages Support
- ➔ Tool Tips and Online Help for filling out the online forms
- ➔ Data Input Validation
- ➔ Use of data replication and controls such as dropdown list box and radio buttons to minimize data entry by the Guardians
- ➔ Saving of partially completed applications to fill out and submit later
- ➔ Applications for returning students for the new school year are prepopulated from previous year's information
- ➔ Viewing of previously submitted or approved applications
- ➔ Printing of Blank and completed forms for paper based submissions
- ➔ Document scanning, storing, and tracking as per district requirements
- ➔ Online Help for users
- ➔ Option to take and store photograph of student using webCam
